

# FREE for 36 Months

Empower your fleet with cutting-edge vehicle intelligence onboard – included for three years. Experience smarter, safer, and more efficient mobility

**MAXUS**  
INTELLIGENCE

## What is Maxus Intelligence

This program, offered by LEVL and powered by the Geotab telematics platform, enables EV fleets to optimise and monitor their vehicles for maximum productivity and efficiency.

## How Will This Transform Your Fleet?

### Real-Time Insights

Stay updated with live tracking and connected vehicle data.

### Fuel Efficiency

Monitor and optimise charging and fuel usage for cost savings

### Smarter Operations

Maximise your range and improve decision-making with detailed analytics.

## Your Gateway to Smarter Driving

Join over 5 million connected vehicles worldwide and contact us today!

**For more information ask your MAXUS EV Specialist or scan the QR code to register today**

Automatically identify vehicles that are ready to transition to EV
